CLASS DESCRIPTIONS

THURSDAY

Raypak's New "Avia" Gas Heater - Learn about the new "Avia" gas heater, how to install one, and how to troubleshoot it!

Jandy JRT Heat Pump - With California outlawing natural gas lines to be installed in some residential neighborhoods, it's now even more important to learn about other heat sources available for a pool/spa application. In this course, you will learn how a Jandy JRT heat pump works, what can be expected for one of these units and how to properly install them.

Jandy JRT Heat Pump - En Español - Con California prohibiendo la instalación de líneas de gas natural en algunos vecindarios residenciales, ahora es aún más importante conocer otras fuentes de calor disponibles para una aplicación de piscina/spa. En este curso, aprenderá cómo funciona una bomba de calor Jandy JRT, qué se puede esperar de una de estas unidades y cómo instalarlas correctamente.

FRIDAY

Jandy Gas Fired Heaters - In this course, attendees will be given important installation, maintenance, and troubleshooting tips when working on a Jandy JXi or HiE2 Gas Fired Heater.

Advanced Web Connected Devices - Come in and learn various techniques on how to verify your customers WiFi is providing sufficient speed/strength to their iAqualink antenna, different ways of connecting an iAqualink antenna to the customers network and some useful troubleshooting tips.

Polaris Pressure Side Cleaners & Booster Pumps - In this hands-on course, you will learn proper installation and repair techniques of Polaris Pressure Side Cleaners. Attendees will work in groups disassembling and rebuilding a Polaris Quattro from top to bottom.

DEL Ozone/UV/AOP - In this course, attendees will learn the features and benefits and proper installation procedures of the DEL Ozone/UV/AOP systems.

AquaCal Heat Pump Solutions - In this class, learn about our heat pumps and how the pool industry has solutions to heating in this Decarbonization Electrification world.

SATURDAY

Dive into California's Energy Efficiency Regulations: All You Need to Know About Pool Construction, Pool Pumps and Replacement Pool Pump Motors - Join us for this class to: Dive into the Title 24, Part 6 building Energy Code requirements and necessary documentation for new construction residential and nonresidential pools, including heater requirements, pipe insulation and pool covers; Discuss the U.S. Department of Energy (DOE) pool pump and California Energy Commission (CEC) replacement pool pump motor regulations and how to comply with them; Discuss how to optimize pool pump/motor installation to ensure customers save energy and have the opportunity to save on their utility bills; Interact with your colleagues using polls, check your understanding (CYU) questions and various scenarios that allow you to apply the information we're providing to potential projects you have; Get an overview of resources available to help contractors and installers comply with energy efficiency codes and regulations (e.g., Energy Code Ace tools, training and resources)

Advanced Web Connected Devices - En Español - Ingrese y aprenda varias técnicas sobre cómo verificar que el WiFi de sus clientes proporcione suficiente velocidad/potencia a su antena iAqualink, diferentes formas de conectar una antena iAqualink a la red de los clientes y algunos consejos útiles para la resolución de problemas.

Jandy VSPs - Learn about the features and benefits of our wide range of Jandy Variable Speed Pumps, how to properly install, setup and troubleshoot a VSP.

Business Roundtable - Join us to discuss how to run a pool business in today's economy! Learn from other current and future business owners and bring back new ideas to your own business,
